

Using our products
for a better
environment.

Innovative products with important advantages

- ✓ Fast, economical batch production based on standard layouts
- ✓ With the dimensions you require – down to the millimetre
- ✓ For the application specified by you – always state of the art
- ✓ Ultra-short delivery times – 3 days as standard

For the sake of the environment – less talk, more action!

- ✓ No pollution from energy loss due to leakage
- ✓ Totally airtight as per EN 13180 – highest class: C
- ✓ Heat-protection insulation – suitable for smoke extraction
- ✓ Thermal insulation prevents energy loss
- ✓ Sound attenuation to protect health
- ✓ Fire protection

Contact us - we'll be happy to advise you!

RECTANGULAR connectors (FFD)

You can find all available versions on our website. For custom-made connectors, just contact us – we're always looking to develop new solutions!

ROUND connectors (FFD)

Whether soft, slotted or normal flange – the choice is yours!

FCS – Flexible Connecting Sleeves (FCS)

FCS Flexible Connecting Sleeves cost much less than FFD Flexible Framed Duct Connectors/Compensators because they do not require a frame, are easier and faster to produce, and offer all the advantages of our high-quality connectors. They can be used in all round ventilation systems where flanges are not required.

FS – Flexible Strips – on rolls (FS)

Special fabric for the production of flexible connections, sleeves and expansion joint compensators. Go to the product list on our website for further details.

DPS – Duroflex Profile System (DPS)

So simple! Make your own connectors. We provide you with all the necessary equipment, materials and information.

Custom designs

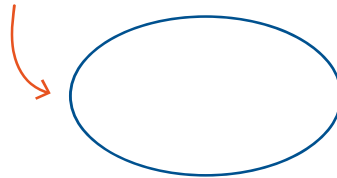

We are happy to produce special shapes such as conical connectors and sleeves, or rectangular-to-round connectors!

Droplet Separator

- ✓ Available in different versions
- ✓ With integrated condensate tray on request!

NEW!

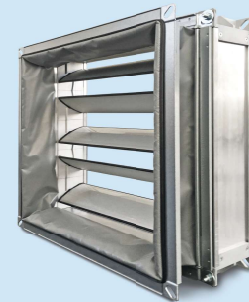

SHUTOFLEX
LOUVRES

NEW!

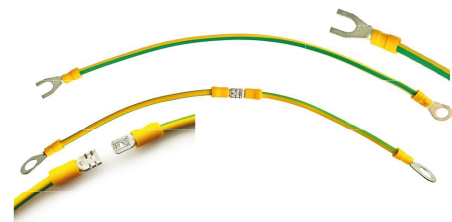

Louvre production at your site:

- ✓ Production time: 5 mins.
- ✓ Cost-saving
